I'm not robot!

Quite enjoyable turn-based role-playing game set in the ³ Viking era of the historical era around 800 Norway. Basically, you don't play as the son or daughter of a recently deceased thegn (or chief), and board and build some experience and resources, before you leave for the British Isles, where you car characters), but only up to 5 of them can be used ââ μ already down. All your ³ companions have the camping system is engaging and different from the usual "just rest for 8 hours" in other games. A ga	you need to build up your wealth and power by invading or trading i't decide whether to forge villains, establish trade routes or just lo ir own ³ and personalities, and behave in certain ways can decreas	the British Isles to protect your lands from the machines μ rival thego of the place, before a second timer expires and you won't come home to their morale, which affects their physical and mental resistance in co	us. You don't eat in Denmark and you have a set period to gather a tea o finish the ³ . You don't usually travel with all your companions (some ombat. The novels are also possible. What's good? - It seems that you	m (or hird), organize a ship to travel on of whom are, by necessity, personalized are not playing the TV Vikings! - The
current date or time; This information is only shown on the main ground travel screen. Unless you have to give you the middle finger, even in medium difficulty. Most fights start with a "surprise round," we first. Characters without shields or decent armor can fall into one or two blows, and you can regular unless you have a character who can spot the traps moving too close to them. Enemies also seem to disappear Petty looting system. Usually you can't take weapons and armor from enemies who kill t suit of armor of a blacksmith, you have to pay it (on valuables and salvage or skins) to manufacture is sword or knife. The * TLDR *: - In summary, a very pleasant history RPG based on game fan shifts like.	here you can only move your characters a short distance to place the y find yourself with at least one of your team down until the mome succeed in their physical or mental endurance checks (for example, hemselves, usually just a random creation item or a script item from the trial of the property of t	nem before the fight starts, often with no coverage available to most of int you start taking your first turn. Closing enemy archers quickly is a g to resist a stun attack) more often than their characters do. Some strain in a more powerful enemy. Traders and blacksmiths generally do not but his to rescue, because even repairing a slightly damaged sword or shiel the lack of polishing and a system Of often difficult, tedious and frustra	them. The enemies then start attacking before you, and the AI tends good idea, but enemies seem to have invisible traps everywhere that cange combat mechanics mean that melee attacks always strike, but at many or sell weapons, armor or items such as torches or μ , only resourced costs 1 ransom unit for each repaired point, and you usually get 1 of atting combat. ϕ afferences Expand the mode points tools included in	to attack your most malleable characters an knock you down or take half your health tacks from a distance have a chance to s such as wood, salvage or fur. If you want a r 2 rescue points by destroying a spare a gog.com and the Steam versions. Steam
